II. MOH Measures

Those who do not wear masks during the epidemic will be fined 100 B\$; those who violate or fail to observe the "digital quarantine order" is illegal behavior and can be fined up to 5000 B\$. If prosecuted by the court, they will face a fine of up to 10,000 B\$ or imprisonment up to 6 months, or both penalties. The previous regulations enacted by government on 7 and 9 August are valid until 4 September.

The Ministry of Health of Brunei once again reminds the public to always pay attention to the color of the BruHealth code on mobile phones. There are 5 types, namely "green", "yellow", "red", "purple" and "blue".

"Green" is a healthy, free code, free to enter and exit any mall, store and participate in activities.

"Yellow" is an unhealthy and risky code. You must be careful and enter and exit any malls, shops, and activities.

"Red" means that you are not allowed to go out to any shopping malls, shops, participate in any activities, or to the vaccination center, only to the testing center or receive medical treatment.

"Purple" is the code for people confirmed with COVID. They are not allowed to go out to any malls, shops, participate in any activities, or go to the vaccination center.

The last "blue" is the code for people recovered from COVID and is still in isolation for 14 days, and is not allowed to go out to any malls, shops, or participate in any activities.

According to the Ministry of Health, anyone who displays the "red" and "purple" codes on BruHealth's mobile phone is not allowed to leave the house, unless it is to a testing center or to receive treatment.

Once it is discovered that a person holding the "red" and "purple" codes does not follow the instructions, which means they will still go out, once they are discovered and banned, they can be fined 5,000 B\$ under the Regulations 204 or be charged in court. Once convicted, they can be charged. He was fined up to 10,000 B\$ or jailed for 6 months or both.

6. Contractor Management During the COVID-19 Pandemic

A total of 210 ppl in lockdown, with living areas disinfected and body temperature being checked twice a day. On the 20th night, two BM local laborers in the warehouse of the Supplies Department were taken by government personnel to do COVID test because their family members were diagnosed as COVID positive. They are currently waiting for the test results. Machinery Dept has arranged for the two employees to live in a separate room and are not allowed to come to work. They have arranged to disinfect their residences and wait for the results. In order to ensure the normal progress of the material picking work, the staff on duty in the warehouse of tomorrow: Gao Jingjing and Zhao Jinshan. Gao Jingjing is mainly in charge of the material in and out of the warehouse and ledger management in the office; Zhao Jinshan is mainly responsible for the delivery of materials and the thorough disinfection of all office spaces in the warehouse. In view of the current situation and will implement the whole process of non-contact distribution from tomorrow. The Material Supplies Department will suspend the use of local laborers from tomorrow. Relevant employment information has been reported to the Machinery Department. The warehouse will integrate resources internally to ensure the delivery of materials. After the nucleic acid test results of the BM company's personnel are no longer positive, Hengyi will consider the use of BM laborers. Starting from tonight, the Material Supplies Department will increase the real-time monitoring of the health status of all employees, requiring people in the same dormitory not to visit each other and dormitory rooms, and to disinfect the public areas in the room.

IV. CEO Instructions on COVID Prevention. (no updates)
